

# 36th Annual *Mother's Day Walk for Peace*

*a mother  
in YEMEN*

"A mother is the family's spine. She is crucial for her family's welfare because so much depends on her. In one-way or another, her well-being directly reflects upon the entire family's well-being. Any damage experienced to her automatically affects her offspring and the family as a whole.

*Afrah Nasser, a Yemeni reporter and blogger living in exile in Sweden.*
